The function of this policy transmittal is to inform providers of several changes to the Medicaid Dental Services Fee Schedule and Policy with the effective dates of September 1, 2014 and October 1, 2014. Codes that are effective October 1, 2014 will be designated with a "*" on this policy transmittal.

a) New Codes: Several dental codes have been added to the Medicaid Dental Services Fee Schedule. Changes to the fee schedule include code additions and descriptions that are defined in the Current Dental Terminology (CDT) Manual as well as the addition of Current Procedural Terminology (CPT) codes specific to radiology and

surgical procedures that are currently on the physician's fee schedule. These updates are consistent with the Healthcare Common Procedure Coding System (HCPCS). This will ensure the dental fee schedule remains compliant with the Health Insurance Portability and Accountability Act (HIPAA) of 1996. Please refer to the dental fee schedule to determine which taxonomies (specialties) are eligible to use the code and which require prior authorization.

The new procedure codes, descriptions and price per procedure are as follows:

will be issued specific to the client and the treating dental provider. Prior authorizations will be valid for 365 days from the date of issue. Post procedure reviews will be valid for 365 days from the date of service.

g) Limited Oral Evaluation (D0140)

Change: Effective September 1, 2014, both children and adults will now be eligible for four (4) problem focused evaluations per calendar year. Currently one (1) Limited Oral Evaluation D0140 is allowed per day. If the limit is exceeded, claims will post EOB 6499, Limit to four evaluations per calendar year.

Non – orthodontic hard copy PA/PR requests can be mailed to:

**CT Medicaid Prior-Authorizations
C/O BeneCare Dental Plans
P.O. Box 40109
Philadelphia, PA 19106-0109**

h) Long Term Care Resident Changes:

Effective October 1, 2014, all clients who reside in long term care facilities will be eligible for an additional cleaning, fluoride and examination (twice yearly rather than once yearly) *without prior authorization.*

Orthodontic hard copy PA requests can be mailed to:

**Orthodontic Case Review
C/O BeneCare Dental Plans
195 Scott Swamp Road, Suite 101
Farmington, CT 06032**

i) Prior Authorization and Post Procedure Review:

Requirements for completing prior authorization requests or post procedure authorization for payment can be found in **Chapter Nine** of the Connecticut Medical Assistance Program Provider Manual on the www.ctdssmap.com Web site under “**Publications**”. Providers may also view the CTDHP Web site at www.ctdhp.com.

j) Tooth Surface Designation: This portion of the policy transmittal is intended to inform dental providers about the proper tooth surface designations to use for primary and permanent dentition when submitting claims which involve CDT codes for restorative procedures.

PA and PR practices have been implemented to ensure that appropriate treatment is given to the client with respect to remaining dentition, oral health status, medical health and necessity in accordance with the Medical Assistance Program policies outlined in Chapter Seven of the Medical Assistance Program policy manual. All prior authorizations and post procedure reviews

The tooth surface designations remain consistent with the American Dental Association’s Universal/National Tooth Designation System; known as the “JP” system. The following single letter codes are used to designate the tooth surfaces:

- B Buccal
- D Distal
- F Facial or labial
- I Incisal

- L Lingual
- M Mesial
- O Occlusal

In accordance with The Dental Regulations [184E.I.c.2.(c)], the Connecticut Medical Assistance Program does not reimburse for the restoration of separate surfaces when treatment is performed on a single tooth by the same provider (on the same tooth, for the same provider). **Dental providers will be reimbursed for the total number of surfaces restored on a single tooth per one year period for each provider.**

Example: Tooth #19 receives a “MO” restoration in forthcoming changes. On March 15, 2015, the same provider submits a claim for a “DO” restoration on tooth #19 for the same patient. The claim will not pay for a second two surface restoration but will pay the difference between the two surface and a three surface restoration.

The following surfaces will be restricted to the following specified teeth. Effective October 1, 2014, claims will deny with EOB 0610, Tooth number/tooth surface combination invalid.

Tooth Surface Applicable	Code	Teeth
Buccal	B	1-32, A- T
Distal	D	1-32, A-T
Facial	F	1-32, A-T
Incisal	I	6-11; 22-27; C- H and M - R
Lingual	L	1-32, A-T
Mesial	M	1-32, A-T
Occlusal	O	1-5; 12-21; 28-32, A, B, I-L, S, T

Beginning October 1, 2014, amalgam and resin procedure codes must be billed with the proper number of surfaces or claims will deny

with EOB 0266, “Insufficient number of valid tooth surface codes billed”.

Beginning October 1, 2014, tooth surface B (buccal) and F (facial) will no longer be allowed to be billed in conjunction with each other for the same procedure code and tooth number. EOB 0611, Surface B & F not payable together - equal surfaces will post if on the same claim or EOB 5018 Surface B & F not payable together - equal surfaces when billed on separate claims.

Please note that the dental fee schedule posted on the Connecticut Medical Assistance Program Provider Manual by Hewlett Packard Enterprise Services (HP) will reflect these changes. The fee schedule may be accessed at: www.ctdssmap.com Select, “Provider”, Click on, “Provider Fee Schedule and Downloads”

Please note that going forward, there will no longer be a PDF formatted dental fee schedule posted to the website; only the CSV fee schedule format will be available.

Distribution: This policy transmittal is being distributed to providers enrolled in the Connecticut Medical Assistance Program by HP.
